### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 1-40 are pending in the application and are currently under prosecution.

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group I, claims 1-5, 21-25, drawn to a process for screening antagonists of PSR, by screening compounds that prevent the biological action of PSR, classified in class 435, subclass 7.1.

Group II, claims 6-11, 26-31, drawn to a process for screening antagonists of PSR, by screening compounds that inhibit oxidation reduction reaction, classified in class 435, subclass 7.1.

Group III, claims 12-20, 32-40, drawn to a process for screening antagonists of PSR, by screening compounds that prevent binding of PSR to a natural substrate for PSR, classified in class 435, subclass 7.1.

Groups I-III are further subject to election of a single disclosed species.

Claims 1-40 are generic to a plurality of disclosed patentably distinct species comprising an antibody, a small molecule, a peptide or a peptide-like molecule, wherein the species small molecule is generic to the species peptide or peptide-like molecule.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are materially distinct methods which differ at least in objectives, method steps, reagents and/or dosages and/or schedules used, response variables, and criteria for success.

The species are distinct, because they are structurally distinct.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement could be traversed.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MINH-TAM DAVIS whose telephone number is 571-272-0830. The examiner can normally be reached on 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JEFFREY SIEW can be reached on 571-272-0787. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
